

winIPRO Interfaces

► Workshop Equipment

IPRO-Software

IT in a professional practice is much more than just a practice management system or video consultation programme. From refraction and lens selection to frames selection, there are powerful software solutions available to support the optician. IPRO has taken on the task of integrating the various software and hardware solutions, to reduce the necessary inputs while gaining maximum usability for winIPRO users. That is the reason for the many and often unique IPRO interfaces.

Workshop Equipment

Gamma Tracer, Blocker

Gamma Edger

Kappa Tracer, Blocker

Kappa Edger

PHI, TESS Tracer

eTESS Tracer

C98 Blocker

ICE Blocker

LE7070 CNC+Tracer

LT700, 900 Tracer

ME 1000 CNC

SE 9000 CNC

Tracer LT-1000

Blocker ICE-1000

Edger LEX-1000

WECO

Combimax CNC+Tracer

3D -Trace Tracer

Telenorm Tracer

3D Tracer

Trace 3 Tracer

CAD I,II,III Blocker

Verifier Pro Blocker+SBM

Edge 450, 455drill CNC

Z90

Axcell Tracer, Blocker

Scanform Tracer

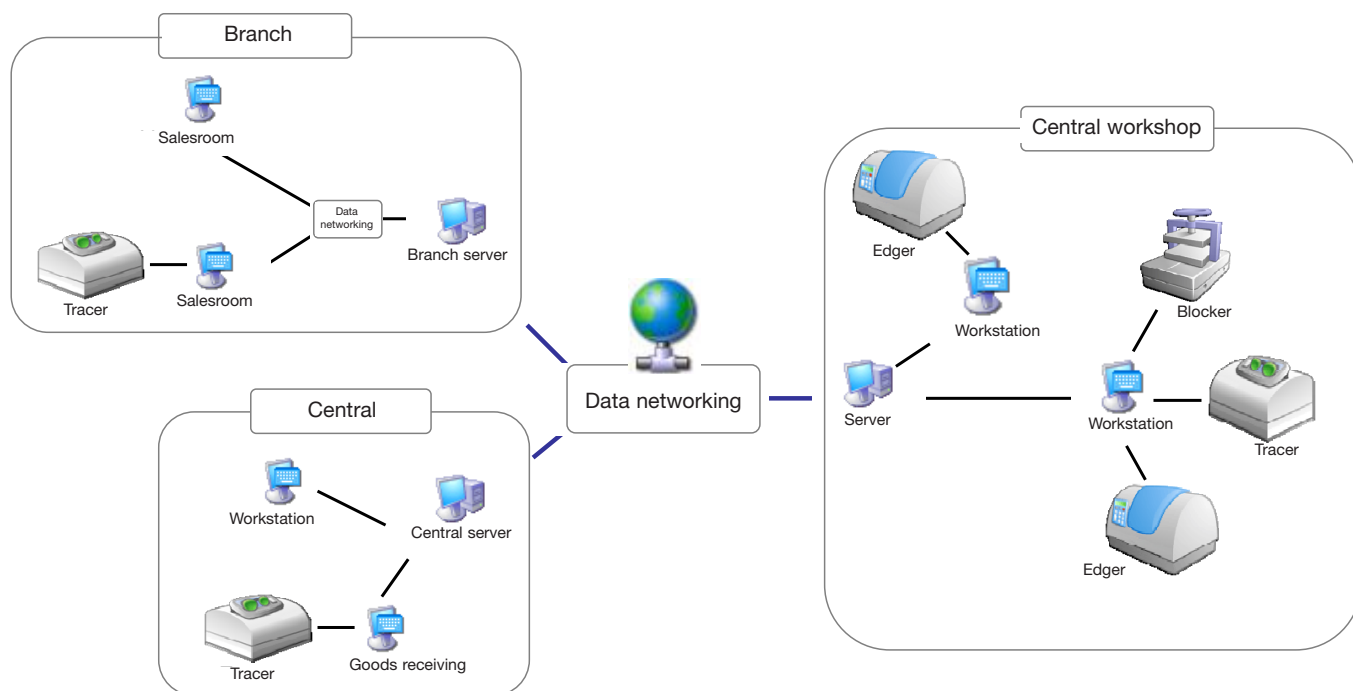

Accura CL

Accura CX

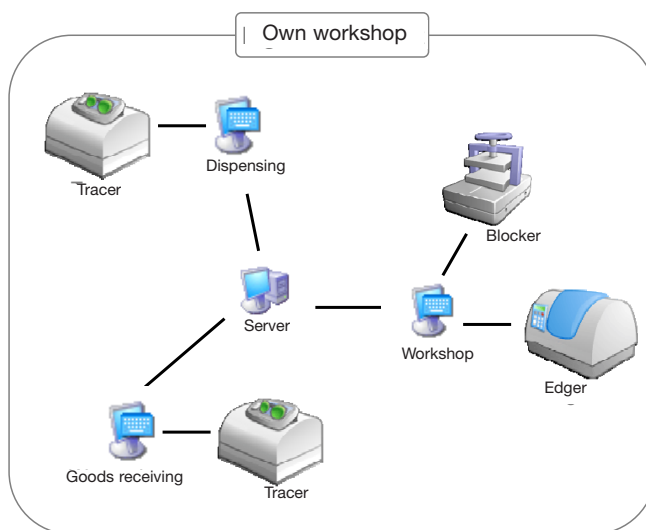

Silver

ALTA

Example for a central workshop in a branch networking

You can use the tracer at goods receiving, during dispensing or in the workshop - wherever it fits best in your work-flow.
